

MECArmes, subsidiary of MECA industry, was founded in 2002 in Andorra by Magno Iannelli.

With a great desire for improvement and thanks to the extensive experience of more than 40 years in the design and manufacture of metal parts, Mecarmes has managed to position itself as a benchmark for the most demanding handlers looking for a perfect harmony between ergonomics and technique.

Design, innovation and quality are the values tirelessly pursued by the MECArmes team.

GE600

GE600 is our most iconic carbine. Our precise manufacturing process (cut entirely in one piece of metal), his elegant shapes and the last generation materials used, we obtain a carbine with the best quality and performance, offering the best absorption in vibrations from a weight Very low.

The GE600 allows us to fix barrel by his own action with maximum precision and grip.

It also has a wide range of colors both of stocks and accessories to create a carbine fully customized by and for the needs of the shooter.

Pieces included in the photograph:

- GE600 Stock Aluminium Anodized green left handed
- Green anodized aluminium Trigger Gard
- Wood Handle Grip Grey-Black Size L

GE600

Evolution

It allows the shooter unprecedented precision that almost completely eliminates any kind of vibration.
The evolution model adapts any barrel thanks to the adjustment system using Barrel rings. These brackets tighten the barrel thanks to powerful silicone washers, eliminating the direct contact of metal against metal, and giving a very pleasant sensations in the shot.
Available in a wide range of fully customizable colors
