

ME  *Armes*

MEC Armes, subsidiary of MECA industry, was founded in 2002 in Andorra by Miquel Jorrell. With a great desire for improvement and thanks to the extensive experience of more than 40 years in the design and manufacture of metal parts, Mecarmes has managed to position itself as a benchmark for the most demanding handlers looking for a perfect harmony between ergonomics and technique.

Design, innovation and quality are the values tirelessly pursued by the MEC Armes team.

GE 654

Works With

GE 654 Interchangeable adaptors system

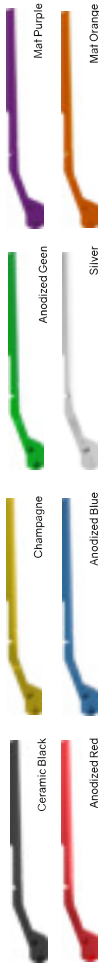

The interchangeable barrels system specially designed by MECArmas, gives the shooter the facility to be able to change the barrel of the carbine by any other barrel of the most prestigious brands simply by purchasing an adaptor.
Thanks to this system our rifles acquire an added value: we have been able to give a better life to our stock since it is possible to adapt car-
nions of different modalities and marks for different categories of shot to a single stock.
As always our stocks offer maximum customization and quality.

As the shooter unprecedented precision that almost completely eliminates any kind of vibration, the GE 654 Evolution adapts any barrel thanks to the adjustment system using barrel rings. Thanks to this system, the shooter can adjust the barrel to the adjustment system using barrel rings. Thanks to this system, the shooter can adjust the barrel to the adjustment system using barrel rings. Thanks to this system, the shooter can adjust the barrel to the adjustment system using barrel rings.

GE 654 EVOLUTION

The GE600 Evolution also has the GE654 evolution version. Thanks to the interchangeable adaptors system designed by MECArmes, you can freely adapt to your GE any model of action and barrel by the action with screws by the barrel with the barrel rings or by both systems. So this is our most versatile and evolved model of the entire range of GE: one single stock, all modalities, all barrels and all anchors.
